

plants@work Awards

Today's customers expect and demand high quality standards for product, premises and service. Businesses which can satisfy these requirements obviously have a considerable competitive advantage and the display of an Award, given by an independent body, is an important contribution to increasing customers' confidence in quality standards. Plants@work acknowledges that to maintain high standards within interior landscaping industry we need to recognise and reward quality and excellent workmanship.

Each year p@w honours companies through its Industry Awards in Landscape Excellence. The awards are designed to recognise the vitally important work carried out by our members, and to identify the teams and individuals that are performing their functions to the highest possible standards.

The p@w Awards were launched in 2004, they provide an opportunity for all the industry to come together to relish and celebrate success of their own companies whilst applauding the achievements of the others.

There are 8 awards categories for the interior landscapers to take part in. The entrants can be recognised for their outstanding design and installation or services provided.

The separate award is reserved for the technicians, those people without whose expertise the interior landscaping business would crumble.

The Awards are rigorously judged with each of the shortlisted projects visited by members of the judging panel. We realise that all green spaces are different and this diversity is welcomed. Each site is judged on its own merits and suitability.
